

Microsoft Project

Reduce Costs, Enhance Operational Efficiency and Drive Growth with PPM

Ben Chamberlain

Senior Product Manager

Microsoft Project

bchamber@microsoft.com

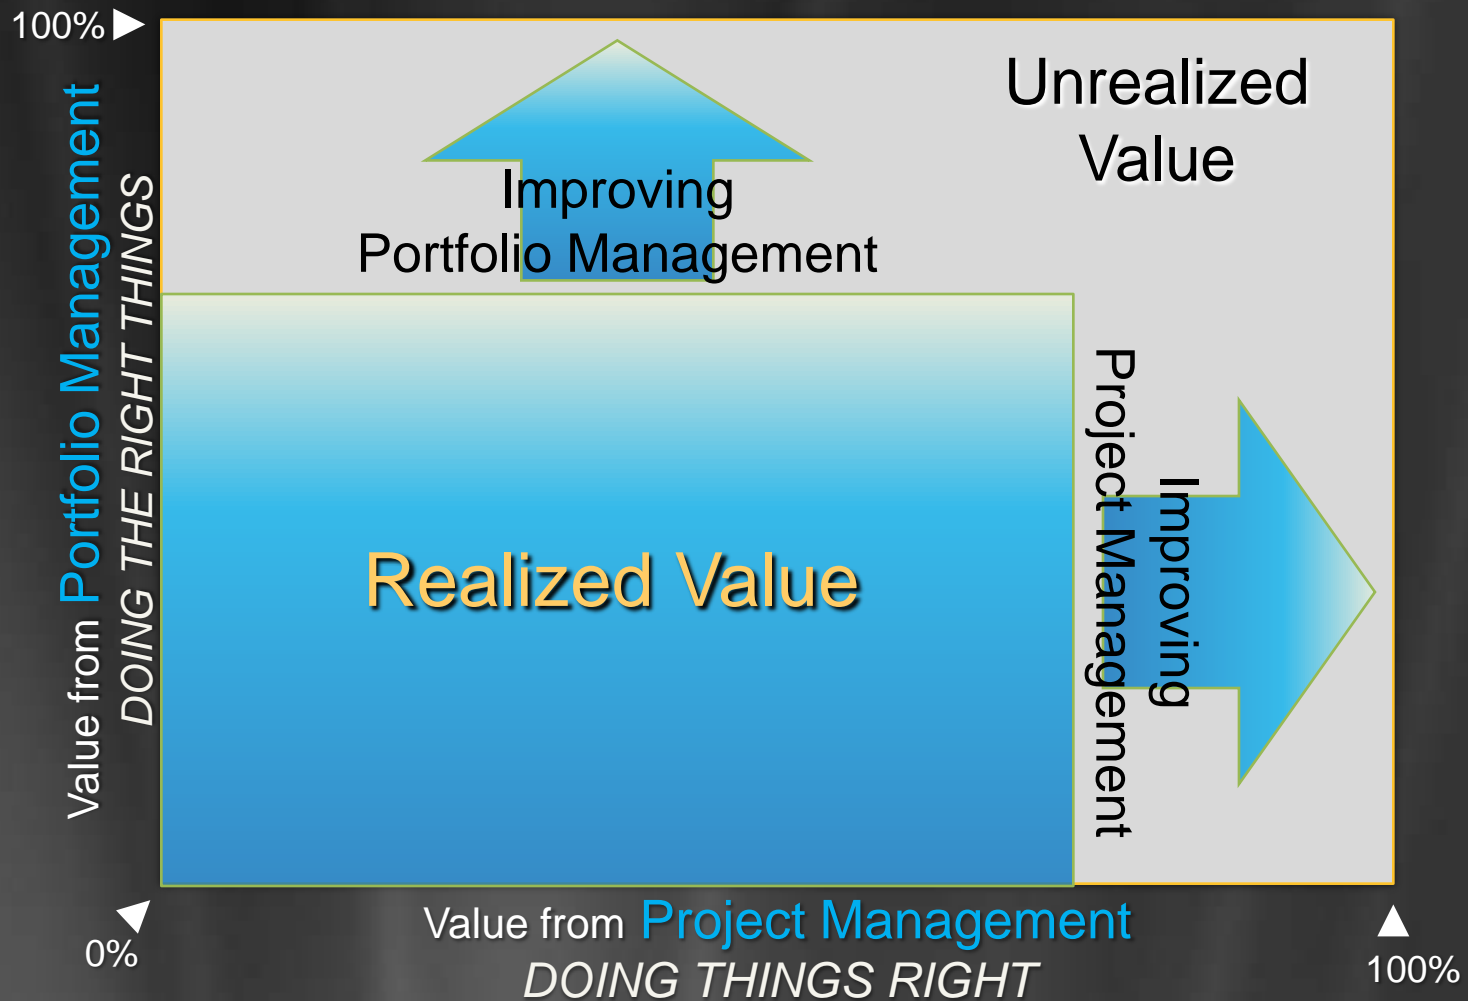

February 18th 2009

Agenda

- What is Project & Portfolio Management (PPM)
- ROI from PPM Processes & Tools
- How Can PPM Help Today
 - Cost Savings & Efficiency
 - Drive Growth
- Q&A

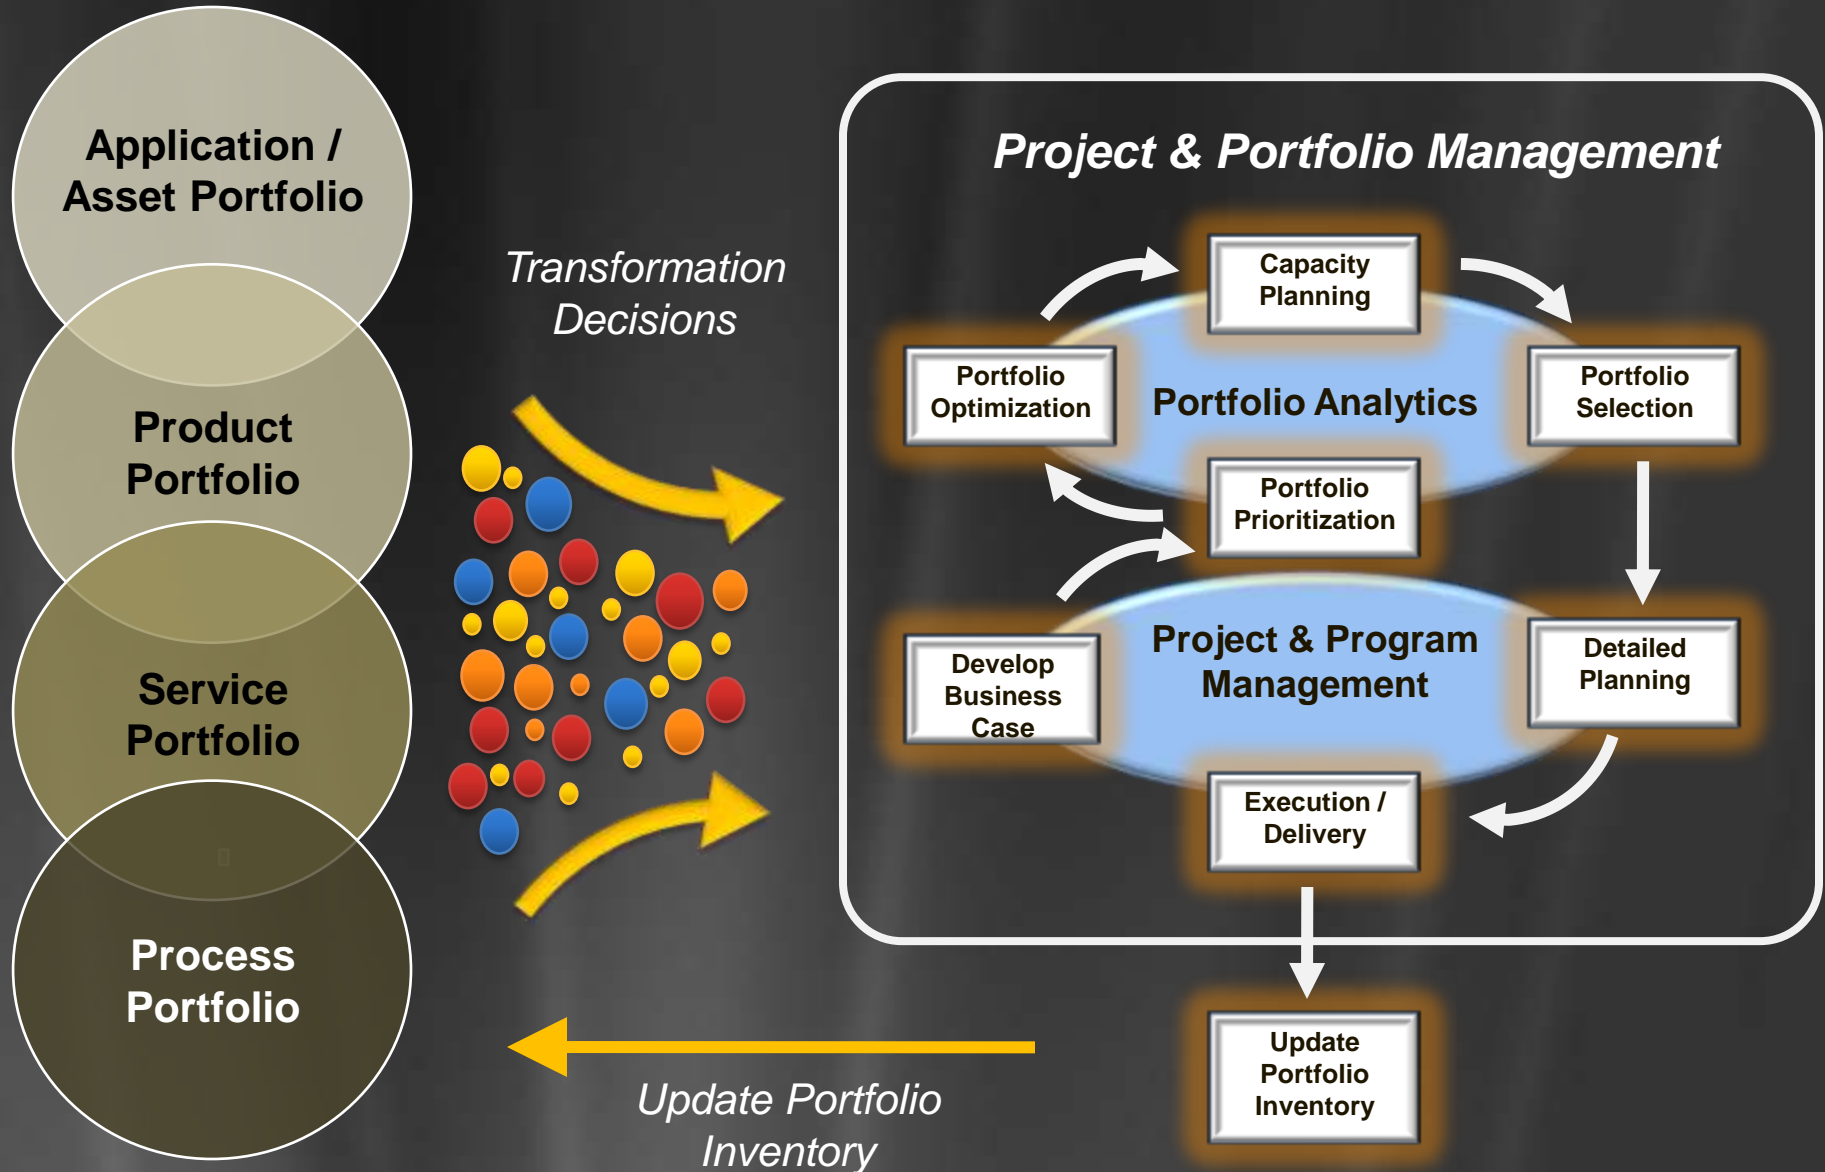

Select And Deliver The Right Things

What is PPM?

It's More than Just Project Portfolios

Gain Visibility & Control Across all Investment Portfolios

Why Invest in PPM

I am sure you have heard this 100 times

		Cost Reduction	Enhance Efficiency	Drive Growth
Alignment	Enhance strategic alignment and drive ROI		↙	↙
Governance	Improve accountability, time to market and project success rates	↙	↙	↙
Consolidate	Capture and standardize all requests in a central repository and minimize waste	↙	↙	
Utilization	Effectively utilize available resources and budgets	↙	↙	
Productivity	Use familiar productivity tools to enhance team collaboration and improve execution	↙	↙	↙
Automation	Automate activities that currently require human intervention (e.g. report generation etc.)	↙	↙	
Visibility	Provide the right information at the right time (e.g. executive reporting)	↙	↙	
Control	Identify, correct or eliminate failing projects	↙	↙	
Integration	Seamless integration with LoB applications and adherence to enterprise architecture / standards	↙	↙	

Can PPM Help Organizations in a Recession?

Should I Fund PPM Initiatives in the Downturn?

Tough Times Ahead

- Global Economic Crisis
- Markets Tumble
- Credit Crunch / Fiasco
- Consumer Confidence Shattered
- Widespread layoffs Across all Industries
- Will Stimulus Packages Work?

How can PPM Techniques Help?

- Improve Decision Making
- Maximize Resource Utilization
- Enhance Visibility & Control
- Drive Execution & Delivery

Strike The Right Balance in Varying Economies

Successful Companies will Lay the Foundation for Growth

Drive Growth

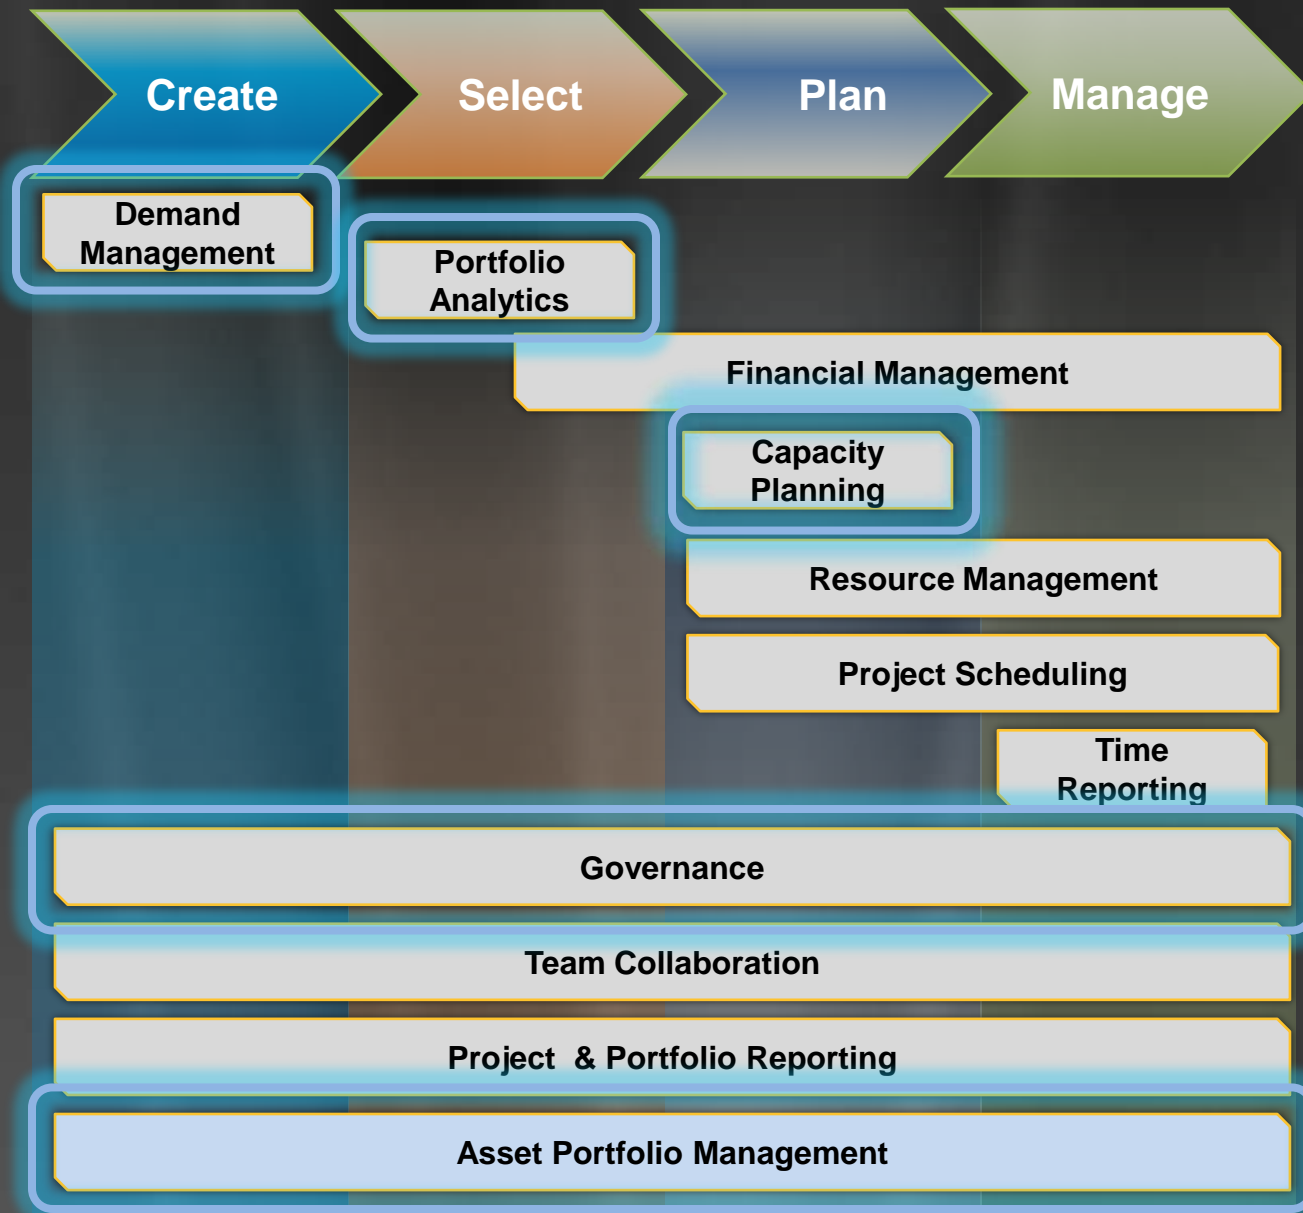

Strike The Right Balance in Varying Economies

Successful Companies will Lay the Foundation for Growth

Project & Portfolio Management Processes

Top Down Techniques Can Drive Results in the Downturn

Savings & Efficiency

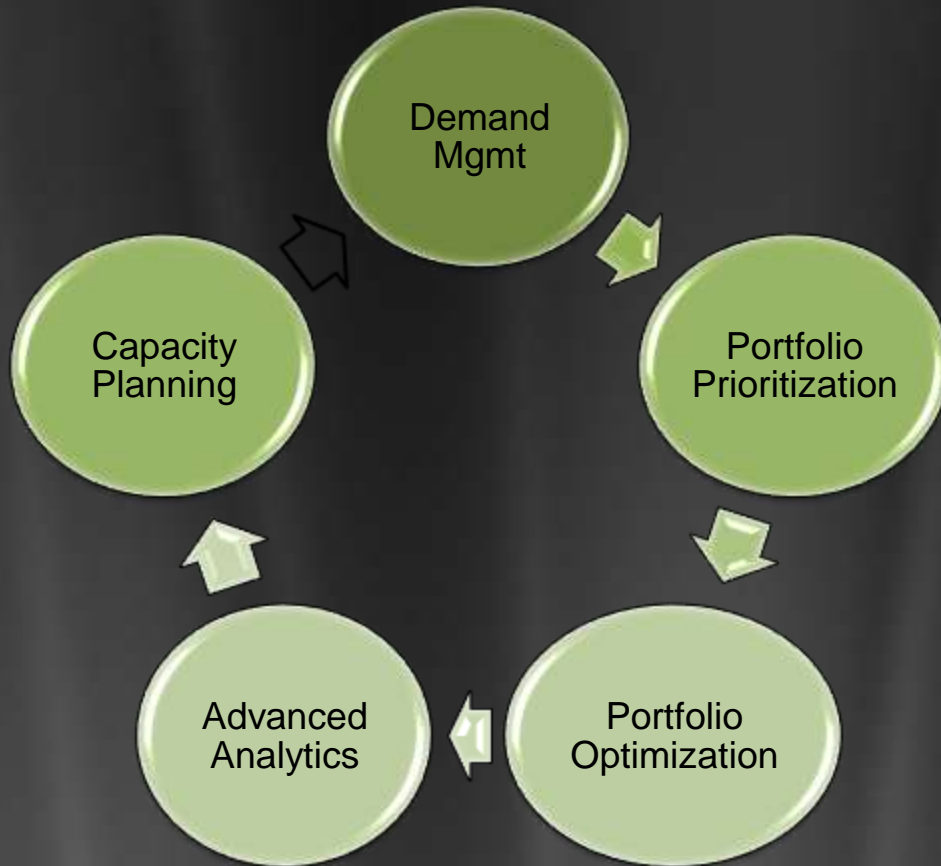

- **Portfolio Selection**
 - Demand Mgmt
 - Governance Workflow
 - Portfolio Analytics
 - Resource Utilization
- Application Portfolio Management

Drive Growth

- Strategic Planning
- Innovation Mgmt

Savings & Efficiency: Do More With Less

Portfolio Selection: Make Informed Decisions

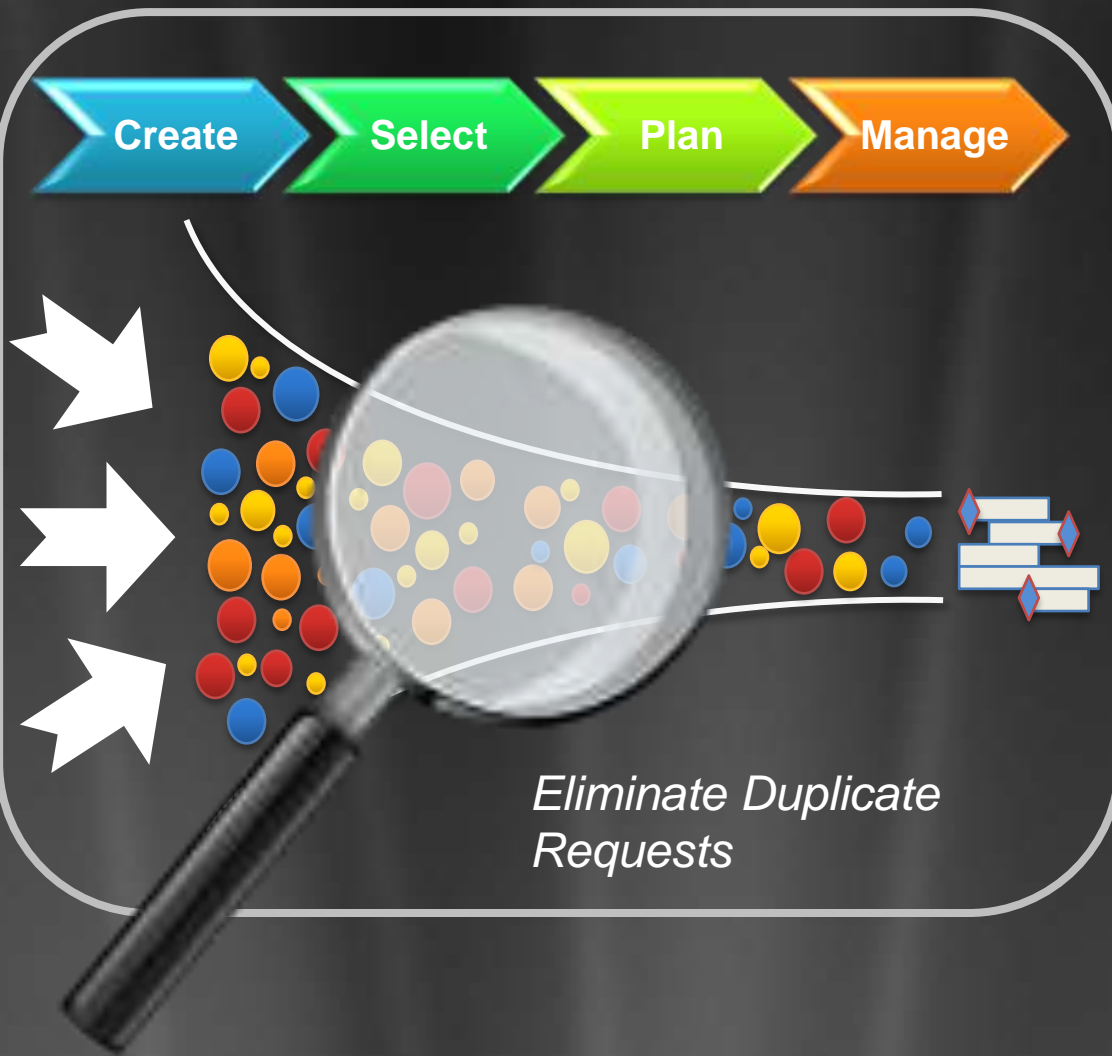

If asked to cut budgets by 60% would you use a scalpel or a hatchet?

Successful portfolio selection requires a handshake between Value Optimization and Resource Utilization

Savings & Efficiency: Demand Management Governance Workflow & Business Case Development

Standardize the Collection of All Work Requests

Governance Workflow

- Drive control & accountability
- Improve time to market with continuous refinement of processes
- Embed and re-use best practice templates

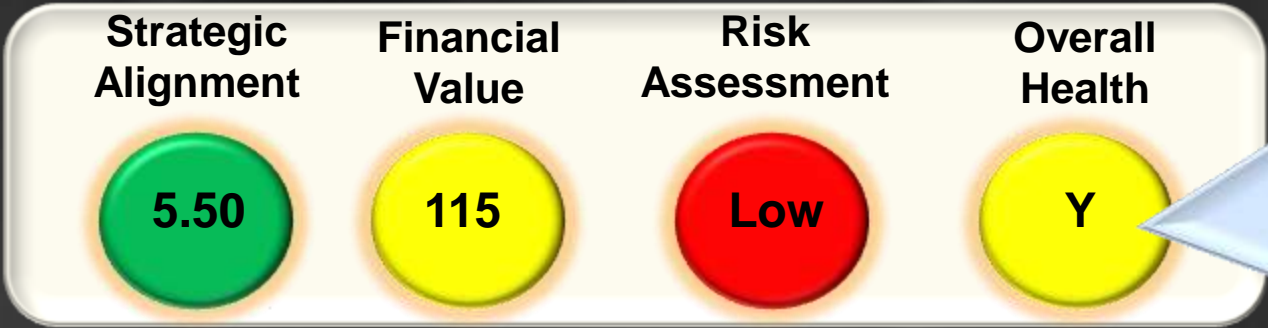

Demand Management

- Visibility across all work requests / demand
- Standardize meta data for enterprise reporting
- Eliminate duplicate requests early in the process
- Improve estimating with empirical evidence

Savings & Efficiency: Portfolio Prioritization

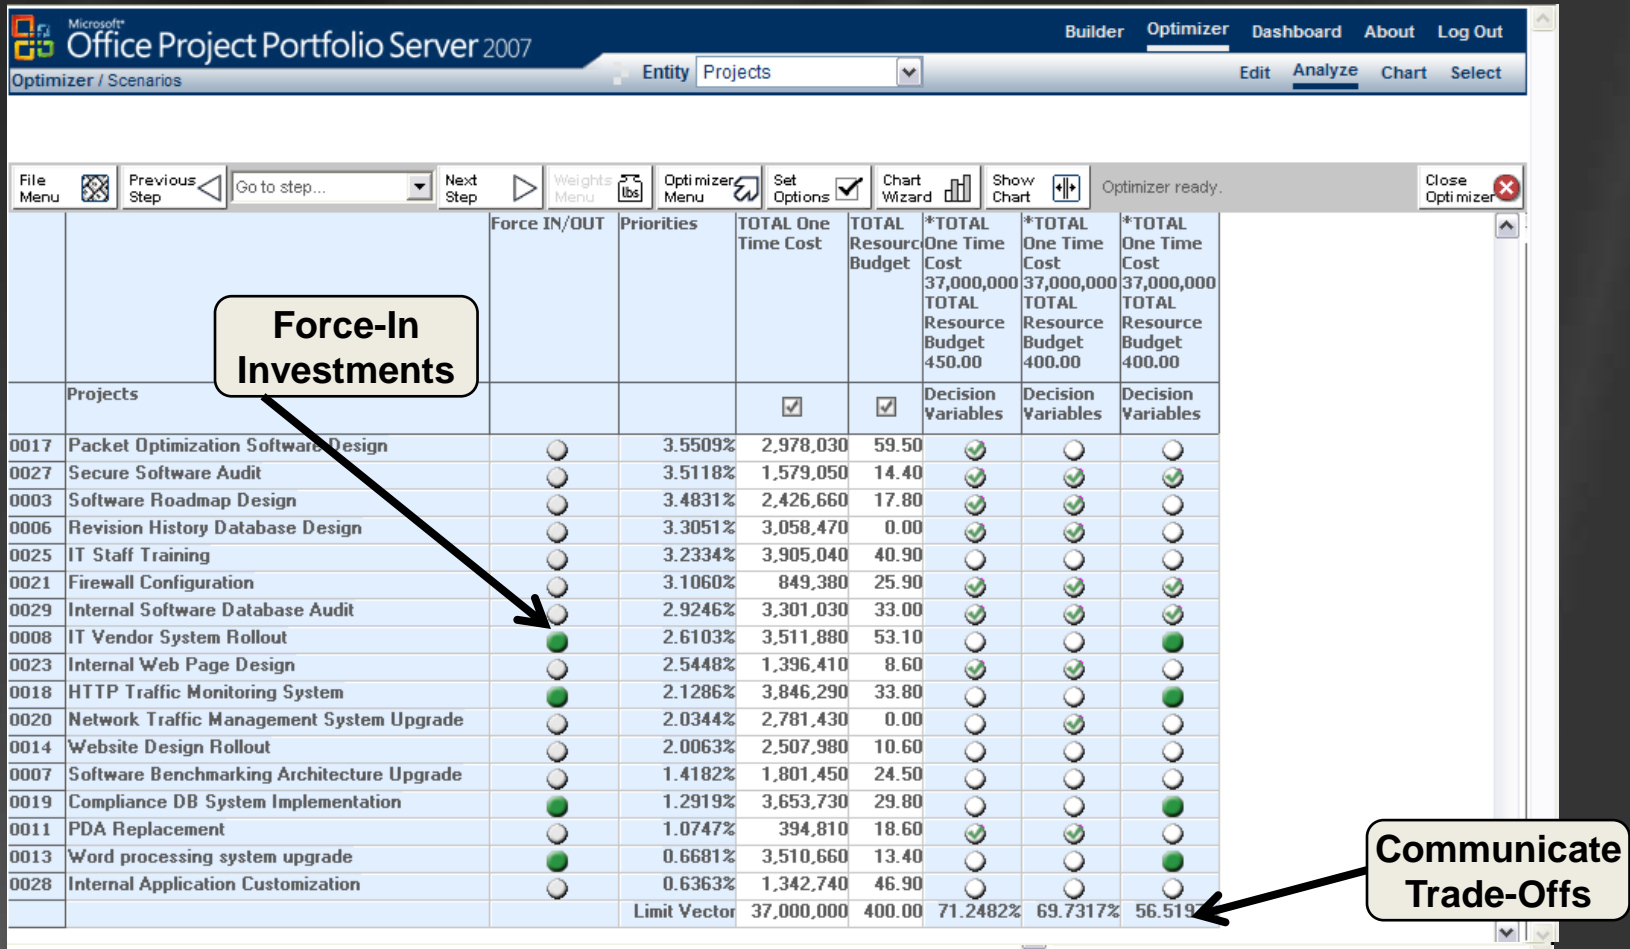

Assess In-Flight & Pending Projects Alike

Project Scoreboard

Savings & Efficiency: Portfolio Optimization

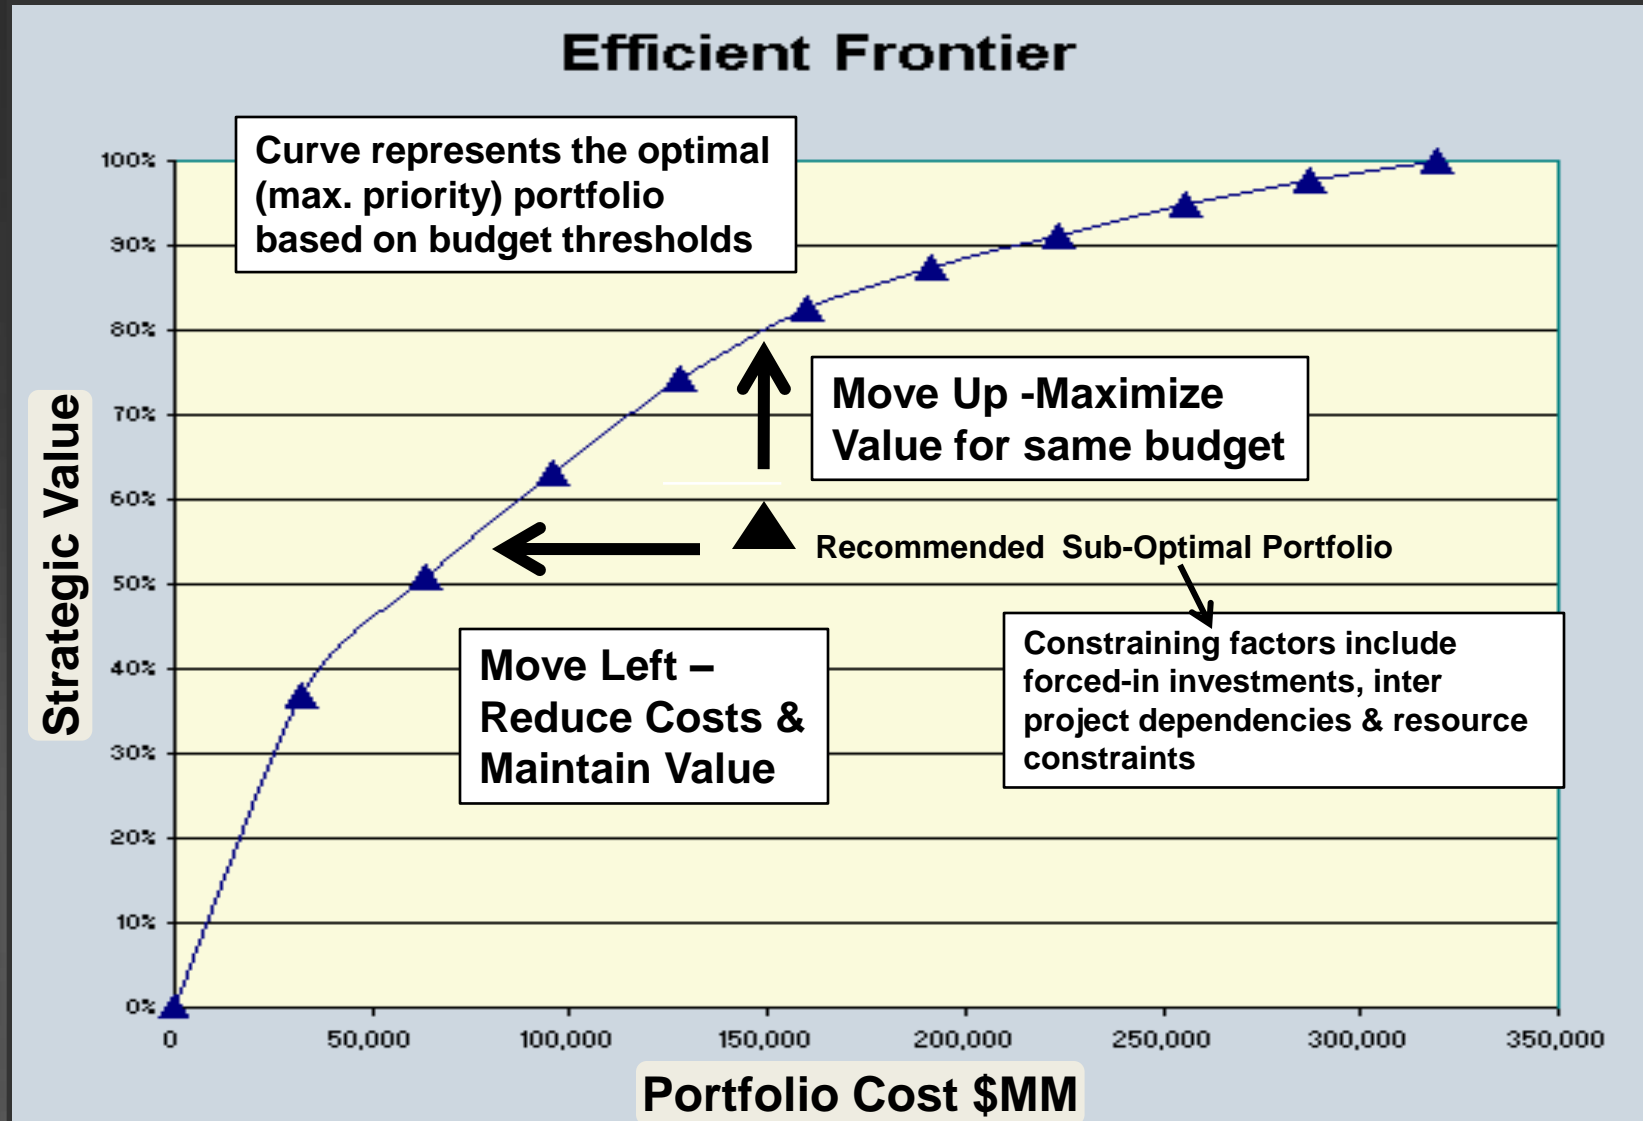

Rational vs. Emotional Approach to Investment Selection

- Run analyses to identify the optimal project portfolio under varying budgetary constraints
- Force projects in or out and immediately understand and communicate the trade-offs

Savings & Efficiency: Advanced Analytics

Break Constraints & Reach the Efficient Frontier

Savings & Efficiency: Capacity Planning

Adjust Schedules to Maximize Utilization

Project Grid List – selected or filtered projects

Project Gantt – sliding bar showing start & end dates, duration of each project

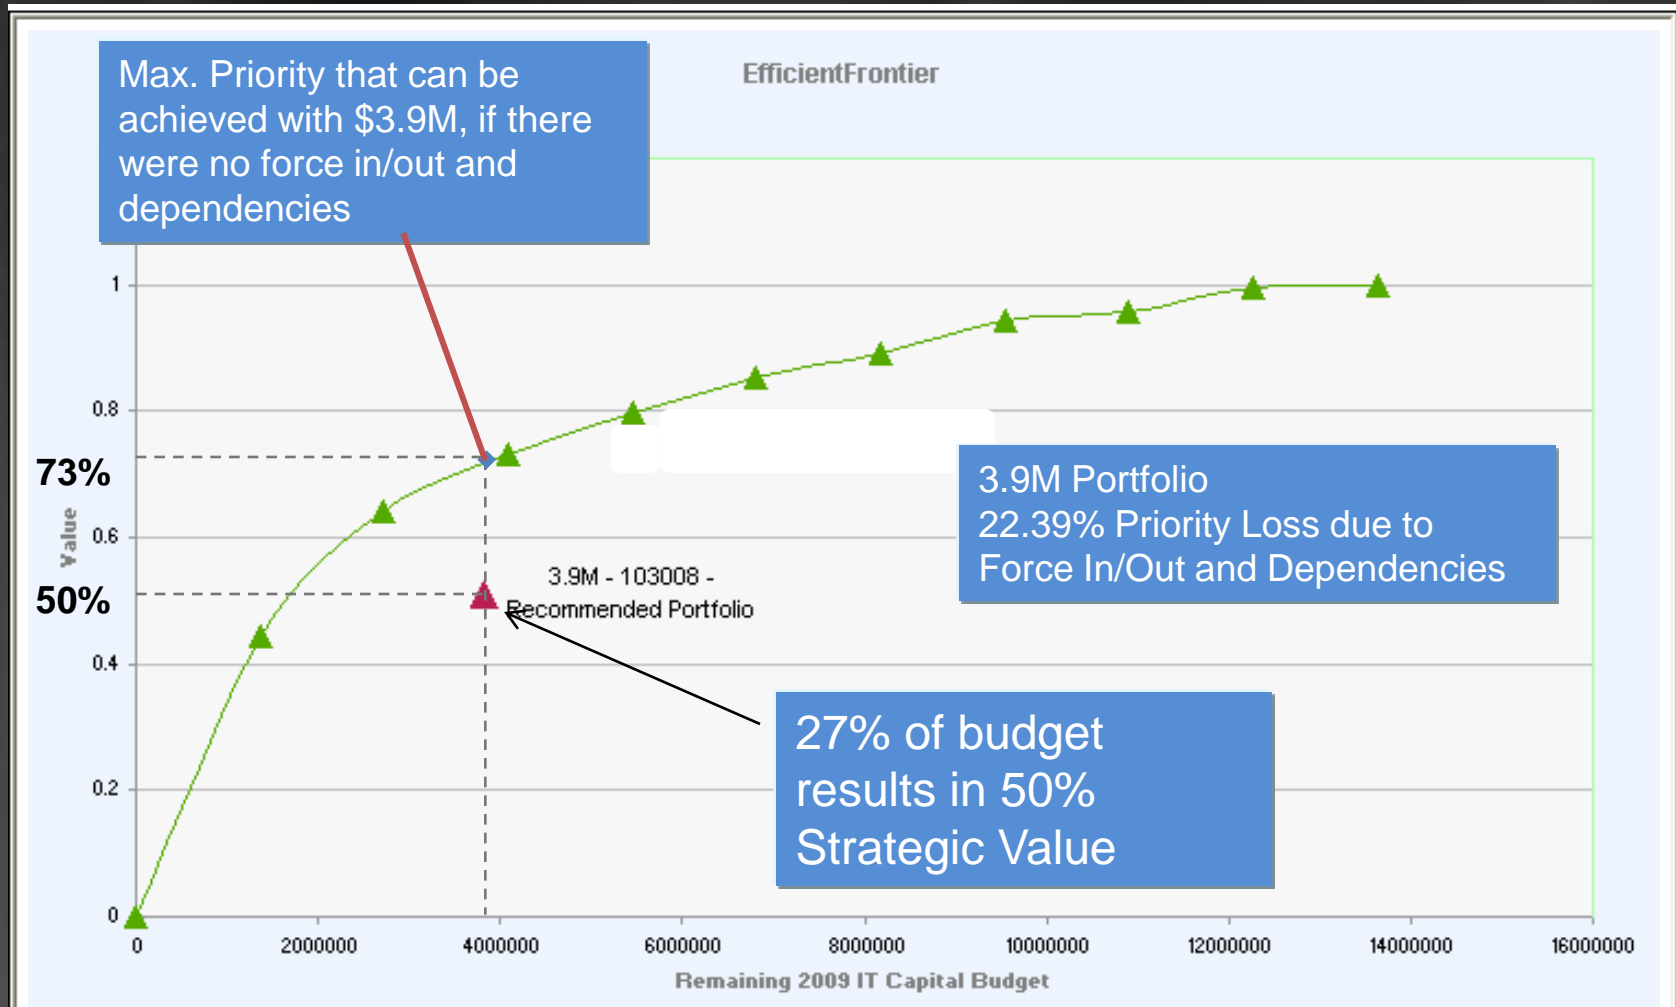

Resource Grid – each resource's total hour assigned each month. Red highlights availability below zero

- Identify resource surpluses and deficits across the planning horizon
- Adjust project schedules to maximize resource utilization
- Finalize project release roadmap
- Model and optimize headcount decisions

Customer Results: Portfolio Selection

Improved Decision Making With Efficient Frontier Modeling

Prev

Savings & Efficiency: Application Rationalization

Cut Lights-On Budget to Fund Discretionary Investments

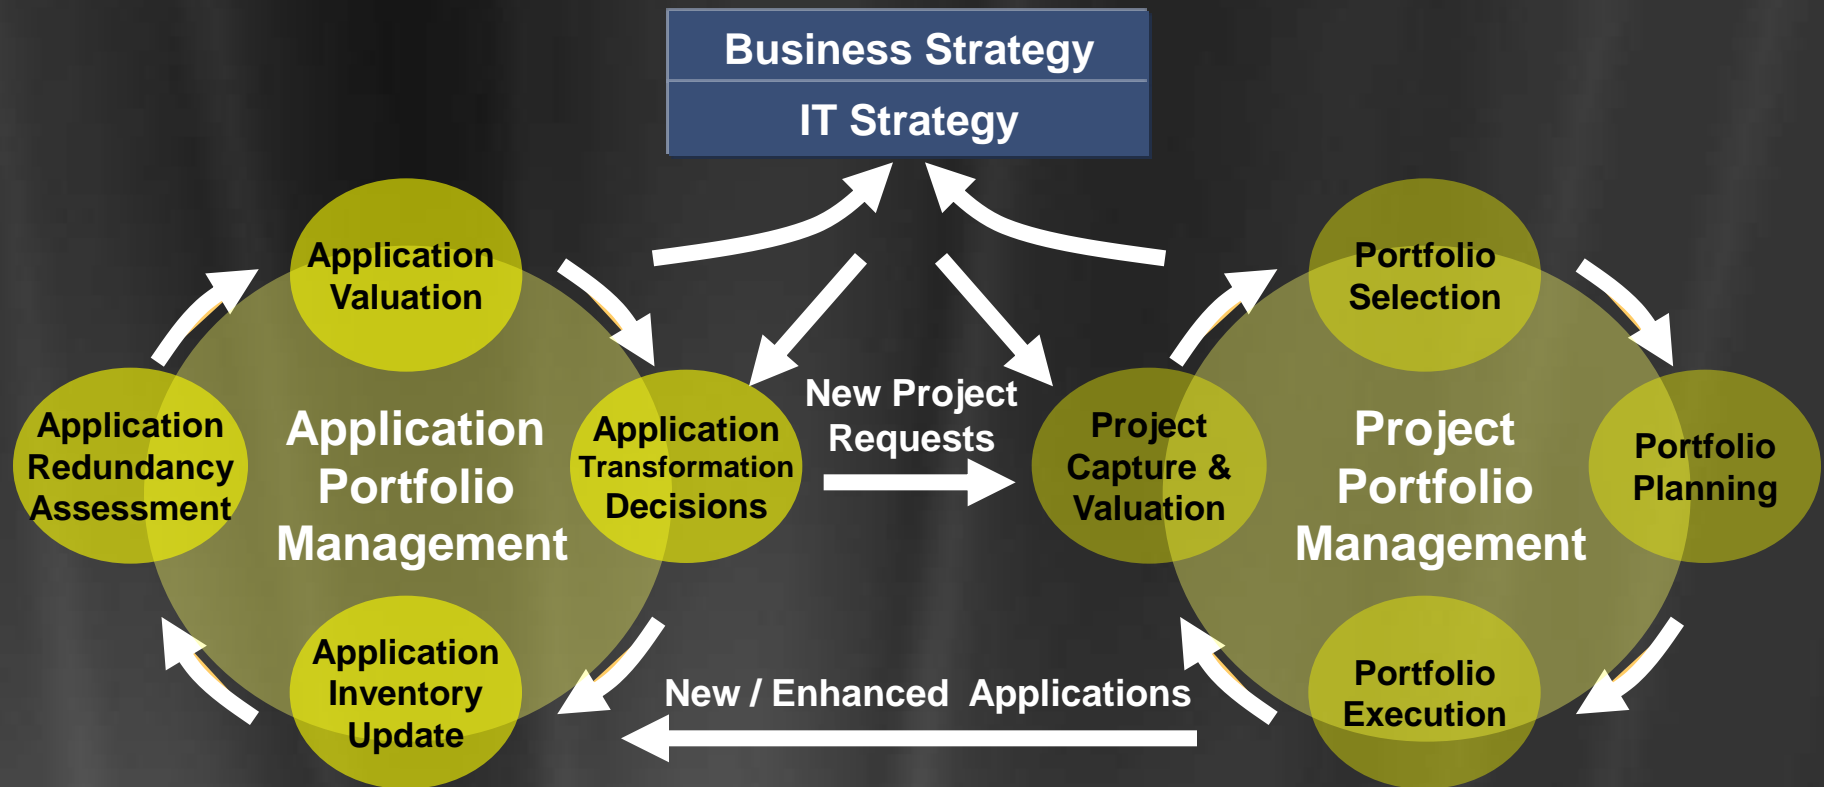

On average 60% – 70% of IT budgets are dedicated to lights-on activities

Source: 2004 Worldwide IT Benchmark Report

Savings & Efficiency: Application Rationalization

Related But Separate Disciplines

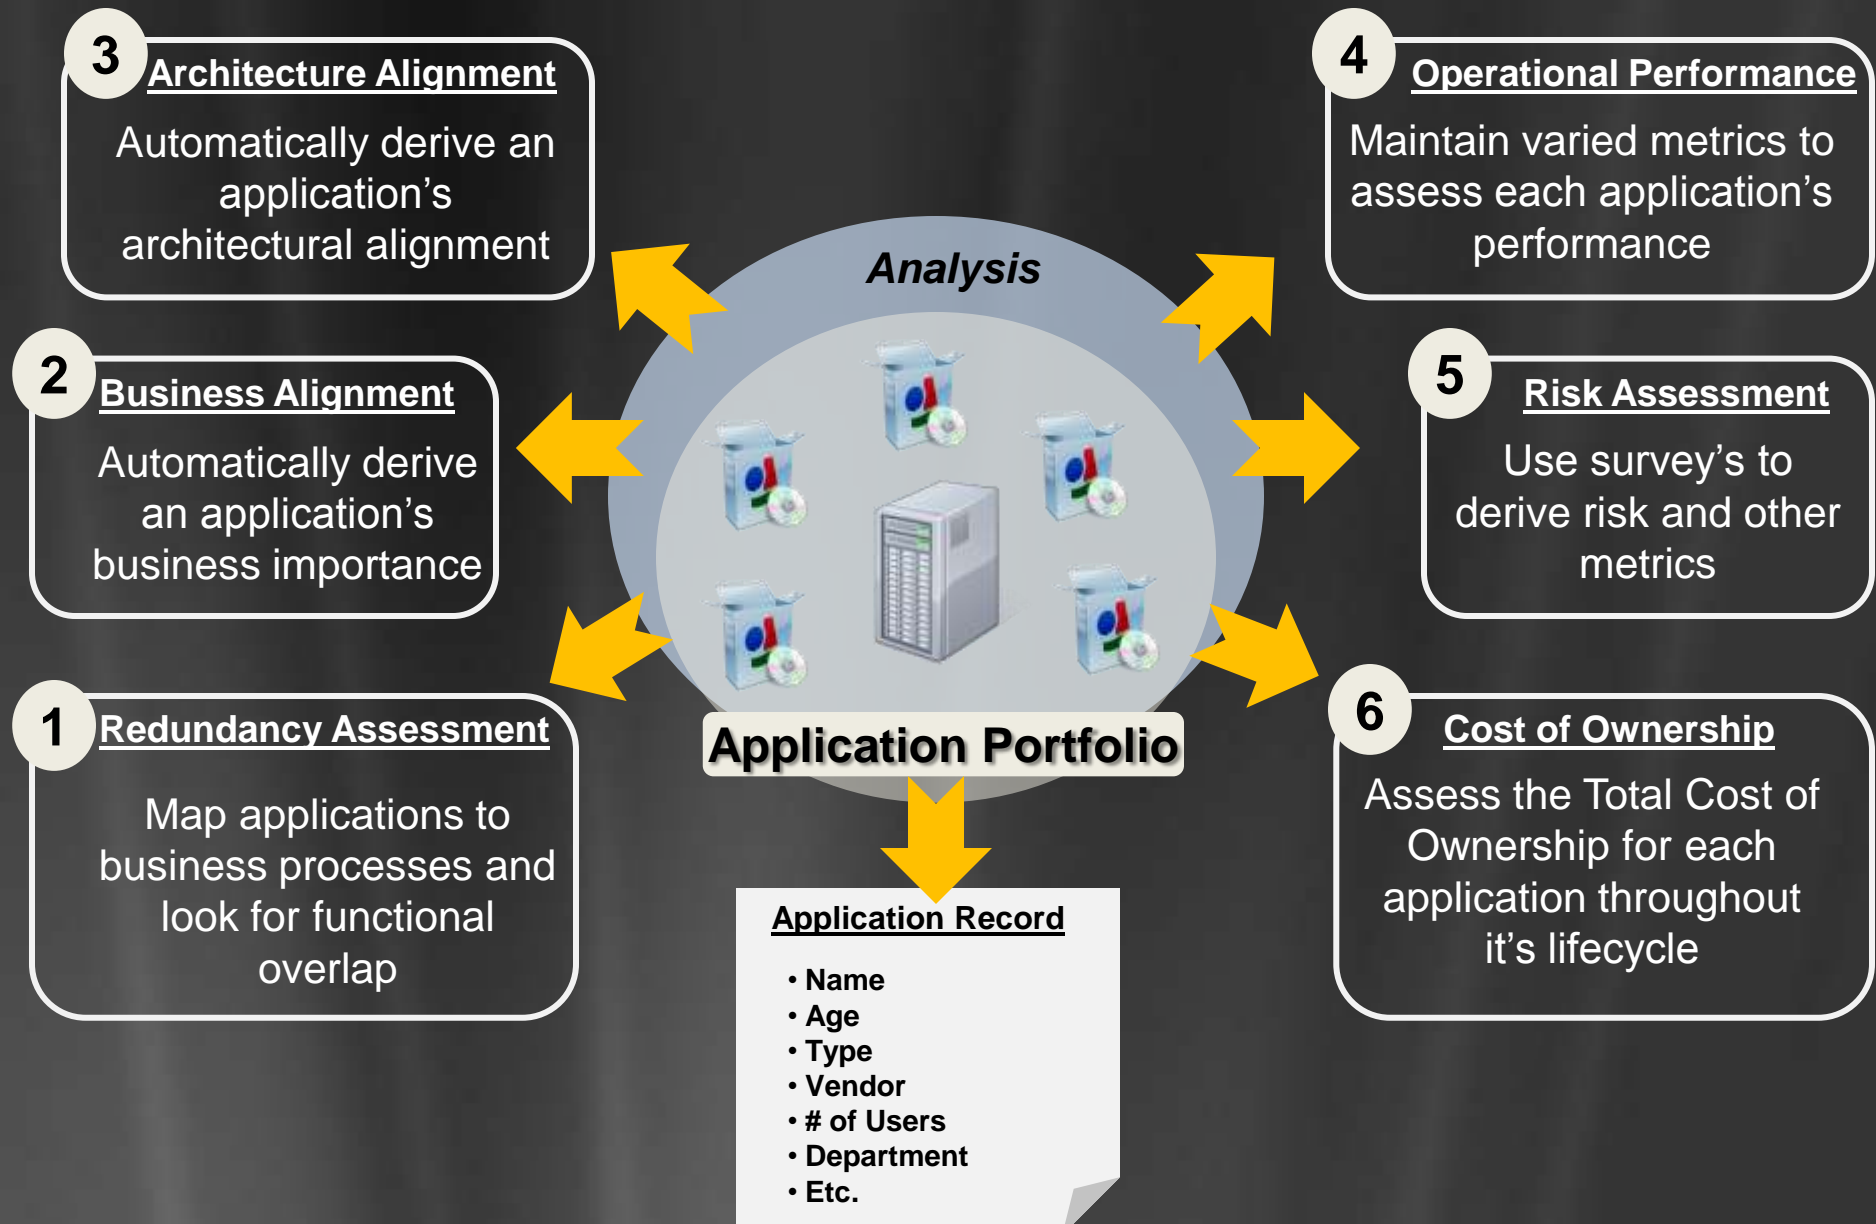

Can you answer any of the following questions?

- How many applications does your organization currently support?
- How much does it cost to keep the lights on?
- Is there functional redundancy within your application portfolio?
- How well do the individual applications align with enterprise architectural standards?
- How well are your applications performing?

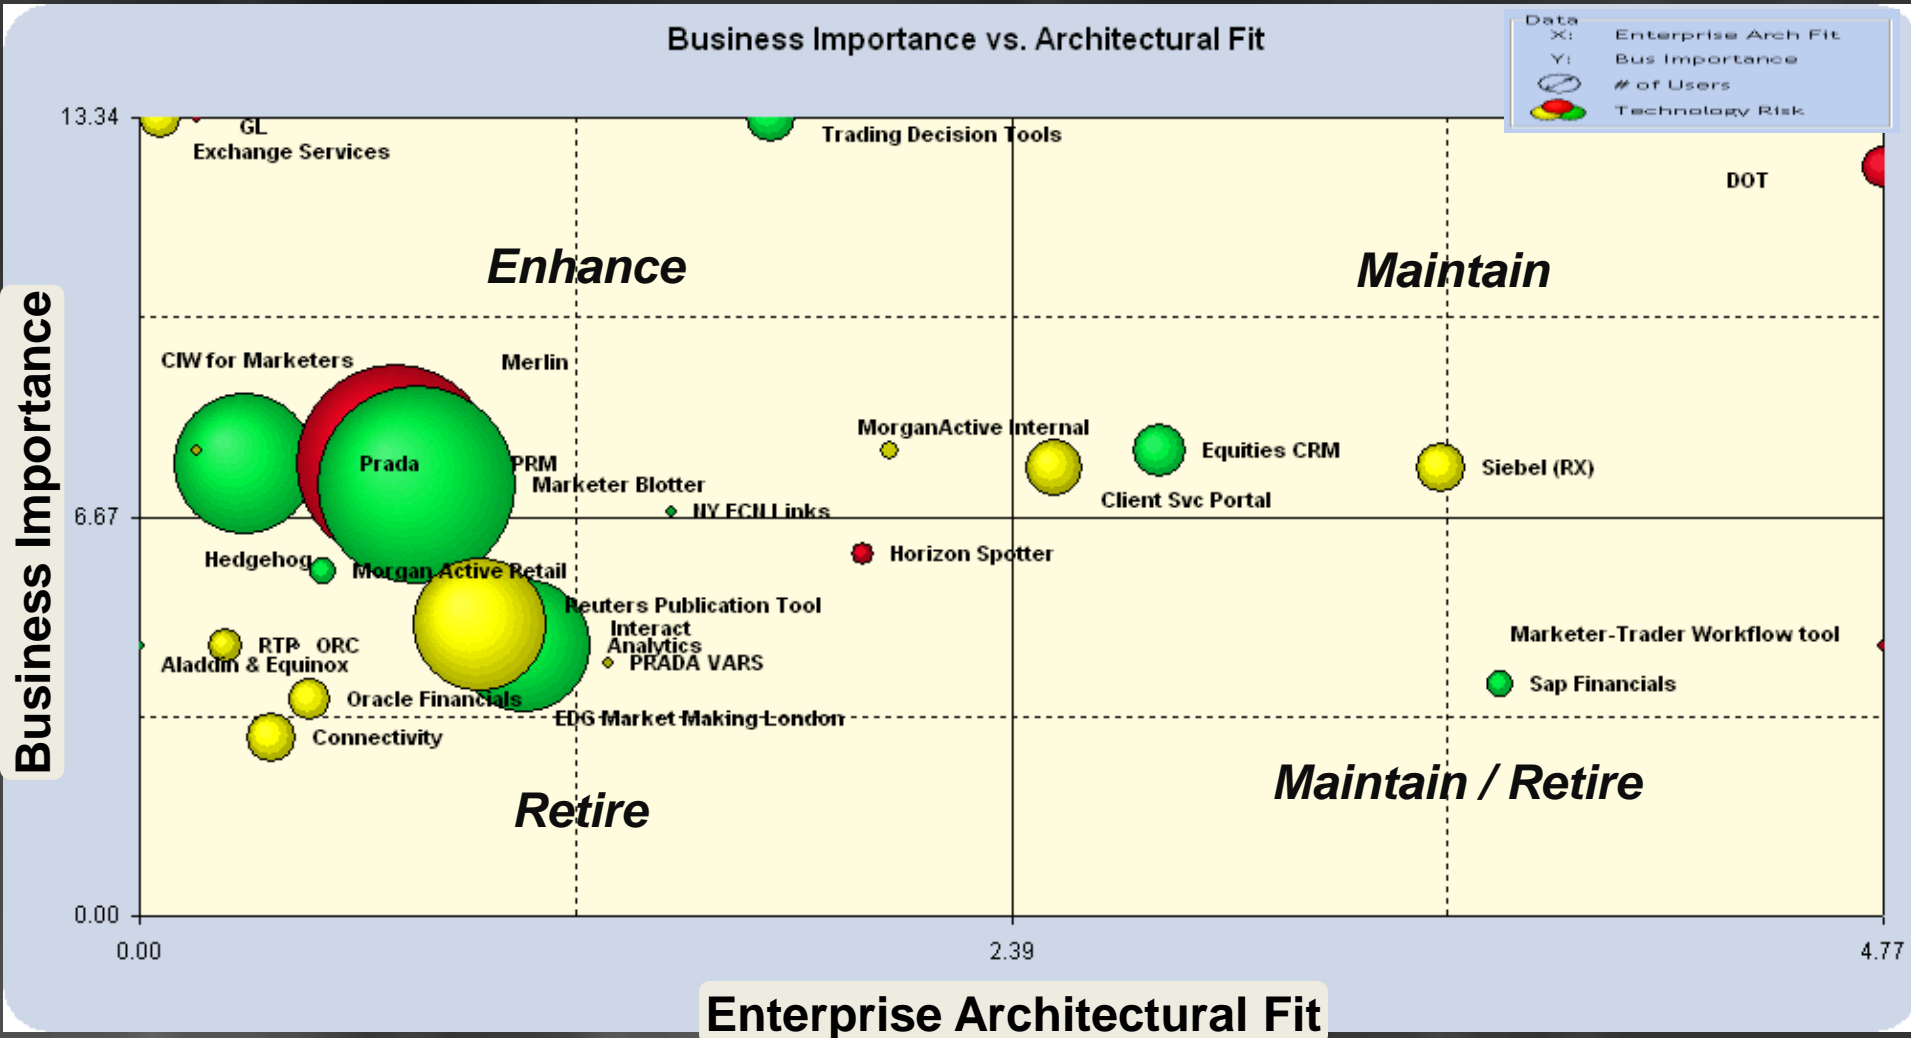

Savings & Efficiency: Application Rationalization

Run Analyses to Finalize Transformation Decisions

Savings & Efficiency: Application Rationalization

Example Charting Analysis

Customer Results: Application Rationalization

APM Analysis Can Yield Significant Returns

Pharma - 2008 lights-on budget is \$921 million

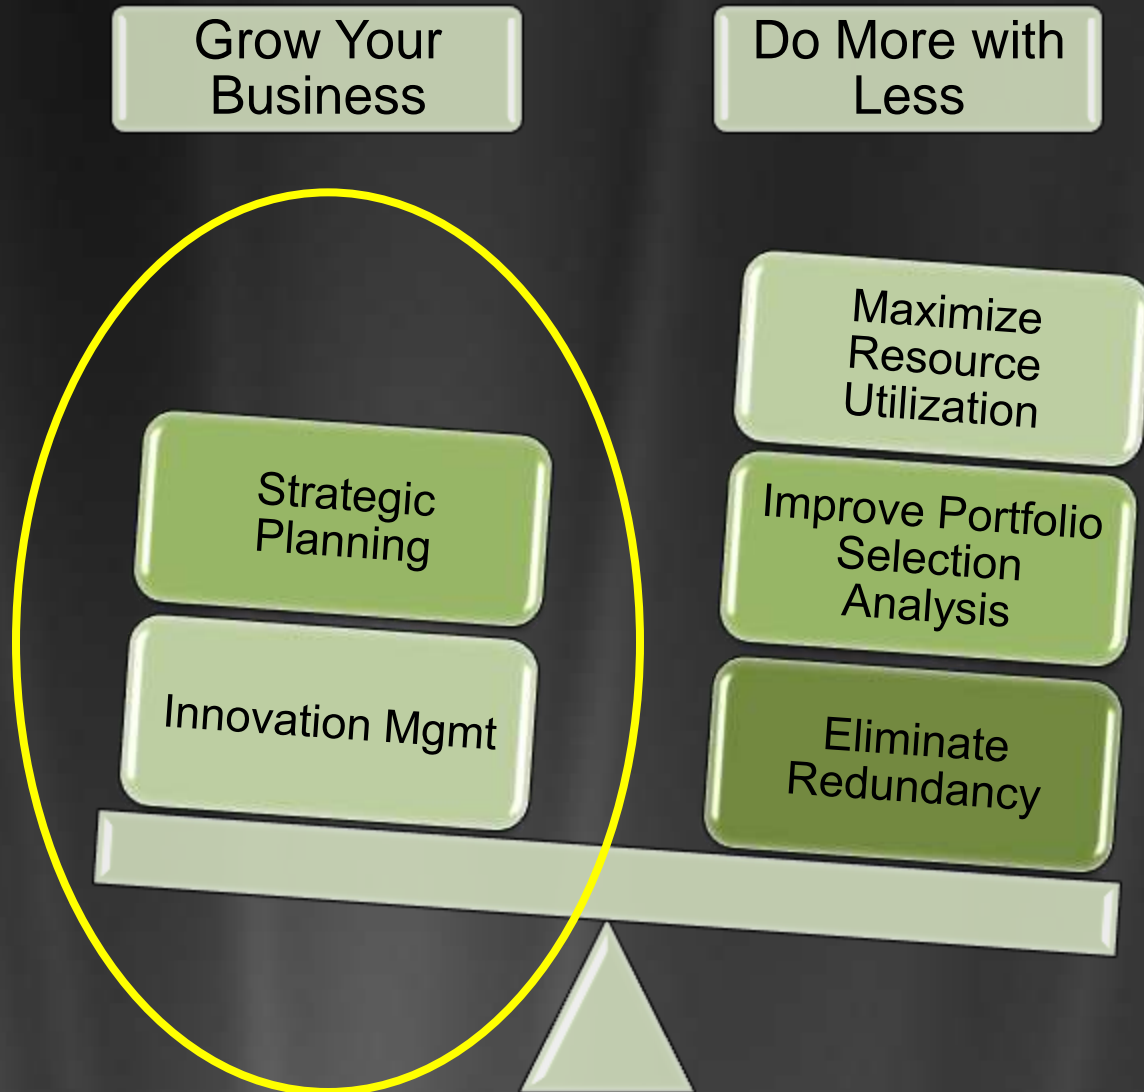

- A very conservative 1% savings from application retirement is \$9.2 million every year; a five year NPV of over \$38 million
- Every 1% savings in Lights-on could enable a 4% increase in the budget for New projects.

Sample UMT Consulting Client Results and Insight

- Reduced “lights on” cost by an average of 10%
- Out of 6,000 applications across 11 portfolios, 464 apps overlapped almost 100% (supported the same business processes)
- Older applications performed *better* than newer ones

Growth: Transform Your Business

Out Perform the Market & Your Competitors

Growth: Strategic Planning Framework

Define & Communicate Business Drivers

Growth: Strategic Planning Framework

Drive Consensus & Prioritize Business Drivers

Pair-wise Comparison

Business Drivers	Expand into new markets and segments	Reduce Expense Base	Improve customer satisfaction score	Increase market share in existing markets	Improve employee satisfaction.
Expand into new markets and segments		Str Less Imp	Equal	Extr More Imp	Mod More Imp
Reduce Expense Base			Str Less Imp	Str Less Imp	Mod More Imp
Improve customer satisfaction score				Mod More Imp	Extr More Imp
Increase market share in existing markets					
Improve employee satisfaction.					
Standardize and streamline cross-functional processes					
Improve product quality					

Relative Priorities

Consistency Ratio: 72.3748%		Next Step	Weights Menu
Business Drivers		Priorities	
0003	Improve customer satisfaction score	25.4181%	
0001	Expand into new markets and segments	19.9042%	
0006	Standardize and streamline cross-functional processes	17.5067%	
0002	Reduce Expense Base	14.2598%	
0007	Improve product quality	10.7066%	
0004	Increase market share in existing markets	8.8478%	
0005	Improve employee satisfaction.	3.3568%	

- Utilize pair-wise to objectively prioritize drivers
- Assess divergence of opinion
- Drive consensus
- Understand relative importance
- Communicate strategic priorities

Growth: Innovation Management

Is innovation a key corporate priority?

“To what extent does your organization’s strategy depend on innovation for its long term success?”

Over 60% of respondents indicated that the organization’s strategy depends “Totally” or “Largely” on innovation for long term success

Growth: Innovation Management

What Is It?

*The conversion of knowledge and ideas into new or improved **PRODUCTS**, **PROCESSES**, and **SERVICES** to gain a competitive advantage.*

Growth: Innovation Management

The Next Big Thing Could Come From Anywhere

The screenshot shows the FABRIKAM website interface. At the top, there's a navigation bar with links like 'Idea Home', 'Challenges', 'Community', 'Process', 'Reports', 'Search', and 'Help'. Below this, a section titled 'Top Ideas' lists several innovation challenges, each with a star rating and a 'Learn More' link. The challenges include:

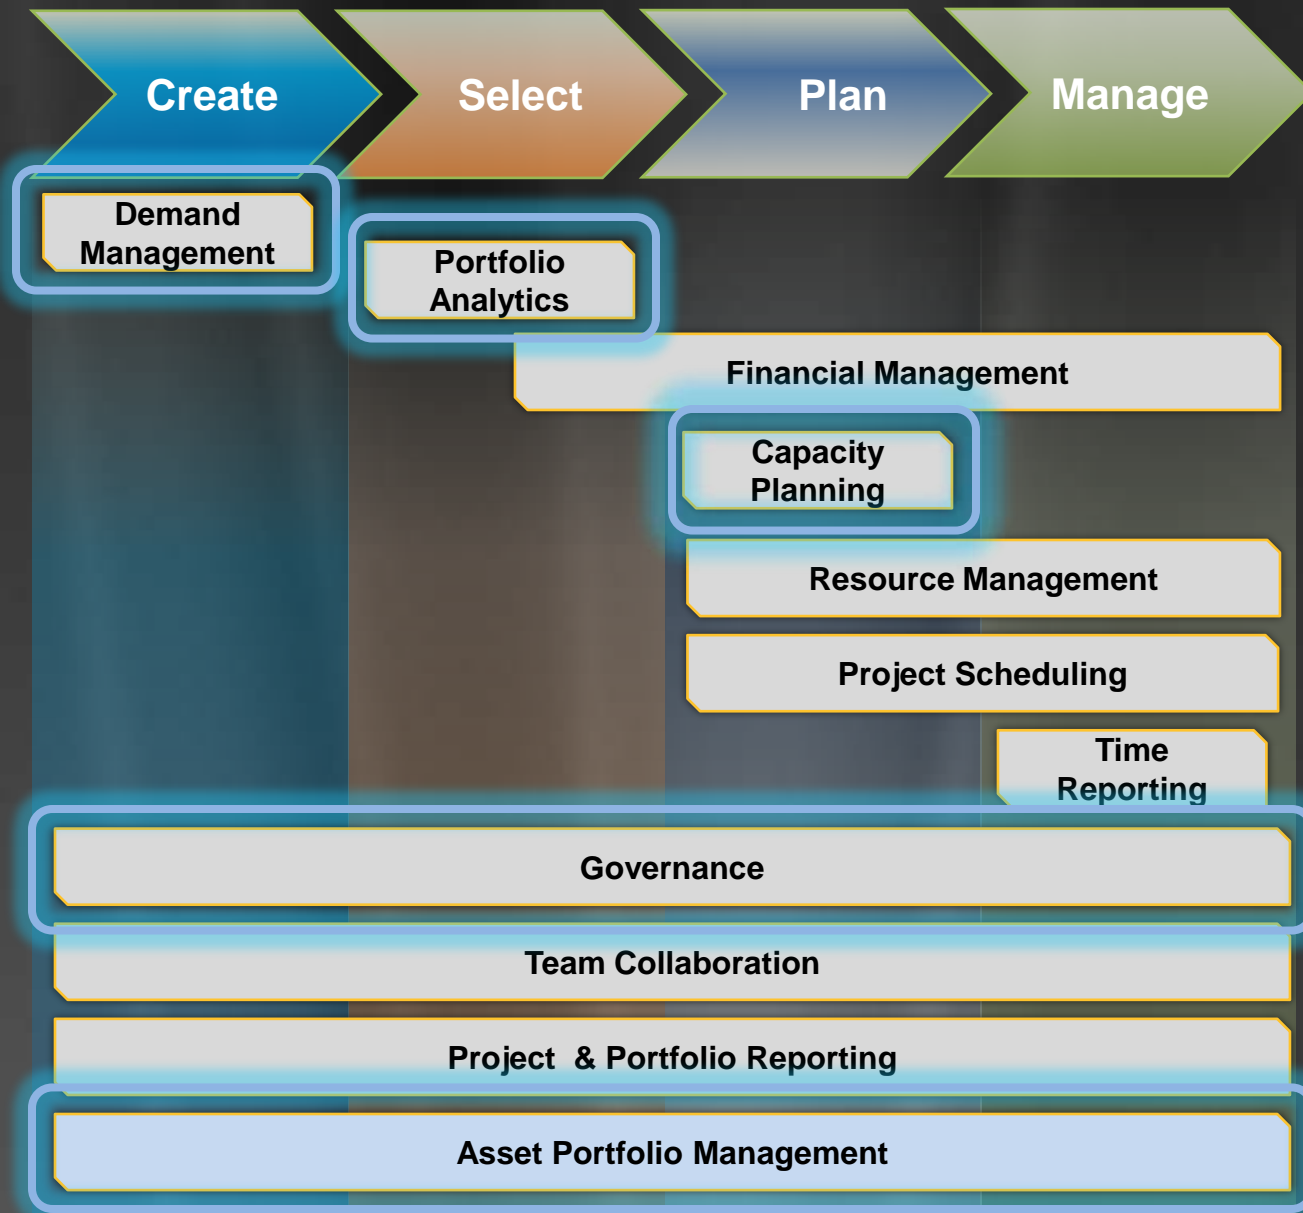

- Gel based membrane helmet** (3 stars): Rather than use traditional materials for a helmet, I think there is tremendous potential for a helmet that uses new gels for protection. Gels absorb impact better ...
- Safety helmet for infants** (3 stars): A helmet that looks like a small hat that has thermal qualities and safety in case of an accident. This would be great for kids with older siblings who may experien...
- Helmet conversion kit for multiple uses** (3 stars): Rather than buying multiple helmets, simply change the nature of the a single helmet platform to suit the application. This would allow us to rapidly cater to new m...
- Transparent helmet design** (2 stars): Taking queue from the trend to make appliances with transparent casings, we should also do a helmet in a transparent plastic maybe even with some LED lighting for ef...
- Sunhat with helmet like safety** (2 stars): Imagine a sunhat that had the same safety qualities as helmet but without the bulk, straps, etc. The idea is to provide some protection in an everyday hat provided ...

On the right side of the page, there are two promotional images: one with a lightbulb and the text 'Innovation @ Fabrikam!', and another featuring a man in a hard hat with the text 'SAFETY IDEA CHALLENGE' and 'It's Safety Month! Submit your idea to be eligible for double Innovator's Points.'

- **Challenges:** Focus Innovation
- **Capture:** Consider Ideas From Anyone
- **Collaborate:** Evolve Ideas in V-teams
- **Score:** Community Review & Ratings
- **Encourage:** Incentives For Innovation

A background image showing a man in a suit and a woman in a business suit shaking hands. The man is on the left, looking up at the woman on the right with a smile. They are in an office environment with bookshelves visible in the background. The text 'Thank you' is overlaid in a large, bold, yellow-to-orange gradient font. A faint, semi-transparent version of the same text is visible behind it.

Thank you
